

Leave Alone Our H₂O (We Don't Want Your Flaming Fluoride)

Words: Brian Hooper

Melody: traditional

The lyricist is addressing the Secretary of State for Health and Social Care in this song.)

*You can't buy fags or tobacco
Without warnings on the pack.
And each box of medication
Bears a list of side effects.
Now you want to give us toxins
In a form we can't avoid.
Don't you think we have good reason
To be more than just annoyed.*

*We don't want your flaming fluoride.
Can't you hear us **saying NO!** ?
Go and buy the kids a toothbrush,
Leave alone our H₂O.*

*Now our doctors and our nurses
Train for years to treat us right.
What a waste of time and money.
We can cure things overnight.
But the medicine in the water
That will get to all the ill.
Never say over-prescription.
This technique is cure or kill.*

*We don't want your flaming fluoride.
Can't you hear us **saying NO!** ?
Go and buy the kids a toothbrush,
Leave alone our H₂O.*

*When our bones have all gone brittle,
And our teeth no longer white,
Will you use the Blair defence line,
"We did what we thought was right".*

*Hear the noise from round the country,
Hear the sound from round the land;
Many millions saying NO -
So which part don't you understand?*

*We don't want your flaming fluoride.
Can't you hear us saying No! ?
Go and buy the kids a toothbrush,
Leave alone our H₂O*

Chant (Video only)

*Politicians, spike your own
Leave our H₂O alone*

*Dentists spike your own
Leave our H₂O alone*

*Public Health spike your own
Leave our H₂O alone*
